

Listing of the Claims

1. (Currently Amended) A method of providing patron service at a venue, comprising the steps of:
 - providing patron units to patrons for use at a venue, wherein the patron units are devices having wireless communication capability and interactive display screens;
 - enabling patrons to order items, request services, and/or browse information associated with the venue via the patron units wirelessly;
 - providing portable staff units to staff members of the venue, wherein the portable staff units are wireless devices having interactive display screens;
 - enabling staff members to view information about orders and/or requests made by the patrons via the portable staff units wirelessly; and
 - displaying locations of the patron units on the display screens of the portable staff units
 - enabling staff members to locate patron units when delivering items and/or servicing requests;
 - providing, to a plurality of patrons, a patron unit in communication with one more central computer systems, each of said patron units providing the functions of:
 - providing an interactive display;
 - allowing a patron to input a request;
 - displaying the status of open requests for said patron;
 - sending a location or other identifier to said central computers; and
 - receiving and displaying information from said central computers;
 - providing, to a plurality of staff, a portable staff unit in communication with said one or more central computer systems, each of said staff units providing the functions of:
 - providing an interactive display;
 - sending requests to said central computers for information regarding requests or patrons;
 - viewing outstanding requests and their status from one or more of said patron units;
 - displaying a map showing the location of one or more of said patron units;
 - displaying information regarding past requests from particular patrons;

allowing a staff member to update the status of an outstanding patron request; and
allowing a staff member to input requests for patrons; and
providing one or more central computer systems, said one or more central computer systems
providing the functions of:
identifying a plurality of patron units by location or a specific identifier;
receiving and processing requests from a plurality of patrons via said plurality of patron
units;
storing information regarding past requests from each patron;
receiving and processing requests from a plurality of staff; and
interfacing with an external point of sale system.

2. (Currently Amended) The method as recited in claim 1, further comprising offering, via said patron units, at least one service selected from a group consisting of ~~the~~ interactive video games, music, movies, internet access, voice and telephony access ~~to patrons via the patron units~~.

3. (Currently Amended) The method as recited in claim 1, wherein said processing requests step comprises the step of further comprising routing orders and/or said requests to appropriate fulfillment centers responsible for handling the orders and/or said requests for the venue.

4. (Currently Amended) The method as recited in claim 3 ~~4~~, further comprising routing orders and/or requests to appropriate fulfillment centers responsible for handling the orders and/or requests for the venue and the step of notifying particular staff responsible for a particular order via their portable staff units when specific orders and/or requests are completed or ready for delivery from the appropriate fulfillment centers to the patrons.

5. (Currently Amended) The method as recited in claim 1, wherein said patron units allow further comprising enabling patrons to page staff members assigned to that patron. for immediate assistance via the patron units.

6. (Currently Amended) The method as recited in claim 1, wherein said enabling patrons to can request bills via the said patron units.

7. (Currently Amended) The method as recited in claim 1, wherein said portable staff units display the displaying a status of open orders/requests which are assigned to a particular staff member on the portable staff units.

8. (Cancelled)

9. (Currently Amended) The method as recited in claim 1, wherein said step of receiving and displaying information from said central computers includes further comprising displaying food and beverage specials goods and services offered by the venue on the patron units.

10. (Currently Amended) The method as recited in claim 1, wherein said step of receiving and displaying information from said central computers includes further comprising displaying cross-sell and/or up-sell recommendations based on the items ordered and/or services requested previous requests made by the patrons.

11. (Currently Amended) The method as recited in claim 1, wherein said step of receiving and displaying information from said central computers includes further comprising displaying advertisements on the patron units.

12. (Currently Amended) The method as recited in claim 11, further comprising displaying wherein said advertisements are appurtenant to the item ordered and/or service requested request made by the patrons on the patron units.

13-38. (Cancelled)

39. (Currently Amended) One or more computer-readable media comprising computer executable instructions that, when executed, direct a patron unit at a venue to perform the functions of:
linking the patron unit to a network provided by a said venue ~~wirelessly;~~
displaying ~~one or more menus enabling the patron to access~~ information associated with the said venue;
~~enable the enabling a patron to order an item and/or submit a request a service from the one or more menus;~~
transmitting ~~the order and/or said~~ request to a one or more central ~~unit~~ computers for processing;
and
~~emit a wireless signal to the network to enable the network to locate~~ sending location information from the patron unit to said central computers.

40. (Original) One or more computer-readable media as recited in claim 39, further comprising computer executable instructions that, when executed, direct the patron unit to display an item previously ordered by the patron to enable the patron to reorder the previously ordered item.

41. (Currently Amended) One or more computer-readable media as recited in claim 39, further comprising computer executable instructions that, when executed, direct the patron unit to display preference information ~~of the regarding a patron, special needs/requests of the patron, and/or information associated with the patron from prior visits to the venue.~~

42. (Currently Amended) One or more computer-readable media as recited in claim 39, further comprising computer executable instructions that, when executed, direct the patron unit to display an estimate of the time to completion of ~~real-time status information related to a pending order request.~~

43. (Currently Amended) One or more computer-readable media as recited in claim 39, further comprising computer executable instructions that, when executed, direct the patron unit to authenticate the patron before the ~~order and/or service~~ request is fulfilled.

44. (Currently Amended) One or more computer-readable media as recited in claim 39, further comprising computer executable instructions that, when executed, direct the portable patron unit to enable the patron to page a staff member assigned to that patron, ~~of the venue for immediate assistance.~~

45-46. (Cancelled)

47. (Currently Amended) One or more computer-readable media as recited in claim 39, further comprising computer executable instructions that, when executed, direct the portable patron unit to display cross-sell and/or up-sell recommendations based upon the patron's request or upon past requests by the patron, ~~on the item ordered and/or service requested by the patron.~~

48. (Cancelled)

49. (Currently Amended) One or more computer-readable media as recited in claim 39, further comprising computer executable instructions that, when executed, direct a portable patron unit to display advertisements appurtenant to the ~~item ordered and/or service requested by the patron~~ patron's request.

50. (Currently Amended) One or more computer-readable media comprising computer executable instructions that, when executed, direct a portable staff unit at a venue to perform the functions of:

displaying notification of when ~~an order~~ a request is ready for delivery to a patron;

displaying details of ~~the order~~ a patron's request;

displaying details about the patron, including at least one of the following: name of the patron, room number of patron, preference information of the patron, special needs/requests of the patron, and/or information associated with the patron from prior visits to a venue; and

displaying a location of a portable patron unit used to ~~place the order~~ make the request .

51. (Currently Amended) One or more computer-readable media as recited in claim 50, further comprising computer executable instructions that, when executed, direct a portable staff unit to indicate whether a request for a patron has been completed, ~~an order has been delivered to the patron.~~

52. (Currently Amended) One or more computer-readable media as recited in claim 50, further comprising computer executable instructions that, when executed, direct a portable staff unit to display ~~an order~~ a request from a patron assigned to a particular staff member.

53. (Currently Amended) One or more computer-readable media as recited in claim 50, further comprising computer executable instructions that, when executed, direct a portable staff unit to display ~~orders~~ requests assigned to a particular zone of responsibility.

54. (Currently Amended) One or more computer-readable media as recited in claim 50, further comprising computer executable instructions that, when executed, direct a portable staff unit to display patrons that are ~~wirelessly~~ logged into a ~~wireless~~ network for the venue.

55. (Currently Amended) One or more computer-readable media as recited in claim 50, further comprising computer executable instructions that, when executed, direct a portable staff unit to display real-time activity of ~~the~~ a patron which is performed concurrently on a portable patron device.

56. (Cancelled)

57. (Currently Amended) One or more computer-readable media as recited in claim 50, further comprising computer executable instructions that, when executed, direct a portable staff unit to display a ~~notification/page that~~ request from a patron is requesting for delivery of the patron's bill.

58. (Original) One or more computer-readable media as recited in claim 50, further comprising computer executable instructions that, when executed, direct a portable staff unit to display messages received from venue management.

59. (Currently Amended) One or more computer-readable media comprising computer executable instructions that, when executed, direct a central computer at a venue to perform the functions of:

~~communicate~~ communicating with a plurality of portable patron units and portable staff units ~~in a venue;~~

~~distribute~~ distributing content to the portable patron units and the portable staff units;

storing information regarding previous requests made by individual patrons;

~~receive~~ receiving requests ~~transaction information~~ from the portable patron units and the portable staff units; and

processing the requests ~~transaction information~~ from the portable patron units and the portable staff units.

60. (Original) One or more computer-readable media as recited in claim 59, wherein the content includes menus for ordering items.

61. (Original) One or more computer-readable media as recited in claim 59, wherein the content includes services offered by the venue.

62. (Original) One or more computer-readable media as recited in claim 59, wherein the content includes advertisements.

63. (Currently Amended) One or more computer-readable media as recited in claim 59, wherein the content includes a history of ~~an item previously ordered~~ requests previously made by a particular patron, said history being stored on said central computer.

64. (Currently Amended) One or more computer-readable media as recited in claim 59, wherein the content includes ~~preference information, special needs/requests, and/or~~ information associated with a particular patron.

65. (Currently Amended) One or more computer-readable media as recited in claim 59, wherein the content includes a status of open ~~orders/requests~~ which are assigned to a particular staff member.

66. (Currently Amended) One or more computer-readable media as recited in claim 59, wherein ~~the transaction information includes at least one of the following:~~ said request is selected from a group

consisting of ordering an item[:], requesting a service, requesting information associated with the venue[:] and requesting a bill.

67. (Currently Amended) One or more computer-readable media as recited in claim 59, further comprising computer executable instructions that, when executed, direct a said central computer to communicate with a fulfillment center computer.

68. (Currently Amended) One or more computer-readable media as recited in claim 59, further comprising computer executable instructions that, when executed, direct a said central computer to notify a the portable staff unit of the responsible staff member when an order is ready for delivery from a fulfillment center.

69. (Currently Amended) A portable patron unit[:], for use in a venue comprising:

a display unit;

a user interface for display on ~~the~~ said display unit, configured to enable a patron while in a public area of a said venue, to interactively order an item and/or request a service offered by the venue; and

a ~~wireless~~ communication unit, configured to ~~wirelessly~~ connect ~~the~~ said portable patron unit to ~~the a~~ network to ~~pinpoint where in the public area the portable patron unit is located and so that a staff member of the venue is able to deliver the item ordered and/or service requested directly to the patron based on the location of the portable patron unit.~~ transmit the patron's location and order to a central computer.

70. (Currently Amended) The portable patron ~~device~~ unit as recited in claim 69, wherein ~~the~~ said portable patron unit is a dedicated device capable of being handheld and carried by the patron ~~and/or a staff member,~~ the said portable patron unit being provided to the patron upon checking into the venue or after the patron enters a particular public area of the venue.

71. (Original) The portable patron unit as recited in claim 69, wherein the portable patron unit is configured to be secured to furniture used by the patron while in a particular public area of the venue.

72. (Original) The portable patron unit as recited in claim 69, wherein the display device is large enough to enable a patron with myopia to read information displayed on the user interface without having to use corrective optical lenses.

73. (Original) The portable patron unit as recited in claim 69, wherein the display device is touch-screen display device.

74. (Currently Amended) The portable patron unit as recited in claim 69, further including packaging, configured to provide protection against the sun and other contaminants, ~~suntan lotion, saltwater, chlorine, sand, dirt, food and/or drink.~~

75. (Currently Amended) The portable patron unit as recited in claim 69, wherein the user interface is ~~further~~ configured to display an item previously ordered by the patron to enable the patron to reorder the previously ordered item.

76. (Currently Amended) The portable patron unit as recited in claim 69, wherein the user interface is ~~further~~ configured to display preference information of the patron, special needs/requests of the patron, and/or information associated with the patron from prior visits to the venue.

77. (Currently Amended) The portable patron unit as recited in claim 69, wherein the user interface is ~~further~~ configured to display an estimate of the time to completion of real-time status ~~information related to a pending order.~~

78. (Currently Amended) The portable patron unit as recited in claim 69, wherein the user interface is ~~further~~ configured to authenticate the patron before the order and/or service is fulfilled.

79. (Currently Amended) The portable patron unit as recited in claim 69, wherein ~~the user interface includes a button to enable~~ the unit allows the patron to page a staff member assigned to that patron, ~~of the venue for immediate assistance.~~

80. (Cancelled)

81. (Currently Amended) The portable patron unit as recited in claim 69, wherein the user interface is ~~further~~ configured to display messages to the patron ~~using the portable patron unit~~.

82. (Currently Amended) The portable patron unit as recited in claim 69, wherein the user interface is ~~further~~ configured to display ~~food and beverage specials~~ goods and services offered by the venue.

83. (Currently Amended) The portable patron unit as recited in claim 69, wherein the user interface is ~~further~~ configured to display cross-sell and/or up-sell recommendations based on the item ordered and/or service requested by the patron, or upon previous requests from the patron.

84. (Cancelled)

85. (Currently Amended) The portable patron unit as recited in claim 69, wherein the user interface is ~~further~~ configured to display advertisements appurtenant to ~~the item ordered and/or service requested by the patron's request~~.

86. (Currently Amended) A portable staff unit, comprising:

a display unit;

a user interface for display on the display unit, said user interface being configured to perform actions selected from a group consisting of enable enabling a staff member to view details about a patron's order, showing a location of a portable patron unit used to make the patron's order, notification of notifying a staff member when an order is ready for delivery and delivery to a patron, showing details about a patron, including at least one of the following: name of the patron; room number of patron; showing preference information of the patron; showing special needs/requests of the patron; and/or information associated with the patron from prior visits to venue; and

a ~~wireless~~ communication unit, configured to ~~wirelessly~~ connect the portable staff unit to a network.

87. (Currently Amended) The portable staff unit as recited in claim 86, wherein the user interface is ~~further~~ configured to allow a staff member to indicate whether an order has been delivered to the patron.

88. (Currently Amended) The portable staff unit as recited in claim 86, wherein the user interface is ~~further~~ configured to display information specifying a quantity of orders assigned to a particular staff member.

89. (Currently Amended) The portable staff unit as recited in claim 86, wherein the user interface is ~~further~~ configured to display information specifying a quantity of orders assigned to a particular zone of responsibility for the portable staff unit.

90. (Currently Amended) The portable staff unit as recited in claim 86, wherein the user interface is ~~further~~ configured to display information specifying a quantity of patrons that are ~~wirelessly~~ logged onto a ~~wireless~~ network for the venue.

91. (Currently Amended) The portable staff unit as recited in claim 86, wherein the user interface is ~~further~~ configured to display actions performed by patrons using their portable patron units as the actions are being performed by the patrons in real-time.

92. (Currently Amended) The portable staff unit as recited in claim 86, wherein the user interface ~~further~~ configured to display information specifying when a notification/page is received from a patron requesting ~~immediate~~ service from the staff member assigned to that patron.

93. (Currently Amended) The portable staff unit as recited in claim 86, wherein the user interface is ~~further~~ configured to display information specifying when a notification/page is received indicating when a patron has requested delivery of their bill.

94-109. (Cancelled)

110. (Currently Amended) A method for a portable staff unit used in a venue[,] comprising the steps of:

displaying notification of when an order is ready for delivery and delivery or the order to a patron;

displaying details of the order;

displaying details about the patron, including at least one piece of information selected from a group consisting of the following: name of the patron, the room number of patron, the seat number of the patron, preference information of the patron, special needs/requests of the patron, and/or information associated with the patron from prior visits to the venue; and

displaying a location of a portable patron unit used to place the order.

111. (Cancelled)

112. (Currently Amended) The method as recited in claim 110[,] further comprising the step of displaying orders assigned to particular staff members.

113. (Currently Amended) The method as recited in claim 110[,] further comprising the step of displaying orders assigned to a particular zone of responsibility.

114. (Currently Amended) The method as recited in claim 110[,] further comprising the step of displaying a quantity of patrons actively logged onto a wireless network for the venue.

115. (Currently Amended) The method as recited in claim 110[,] further comprising the step of displaying actions performed by patrons using their portable patron units as the actions are being performed by the patrons in real-time.

116. (Currently Amended) The method as recited in claim 110[,] further comprising the step of displaying a notification/page from a patron to which the staff member is assigned requesting ~~immediate~~ service.

117. (Cancelled)

118. (Currently Amended) A method[,], comprising the steps of:

- providing patron units to patrons for use in a stadium/arena, the patron units having ~~wireless~~ a communication ~~capabilities~~ link connecting said patron units to a network and interactive display screens;

- enabling patrons to ~~wirelessly~~ order items, request services and/or browse information associated with the stadium/resort via the patron units;

- providing portable staff units to staff members of the stadium/resort, the portable staff units being wireless devices having interactive display screens;

- enabling staff members to view information about orders and/or requests made by the patrons via the portable staff units; and

- providing locations of the patron units to enable the staff members to deliver the items ordered and/or services requested directly to the patrons.

119. (Cancelled)

120. (Currently Amended) One or more computer-readable media comprising computer executable instructions that, when executed, direct a portable staff unit at a venue to perform the functions of:

- displaying notification of when an order is ready for delivery and delivery of the order to a patron;

- displaying details of the order;

- displaying details about the patron, including at least on of the following: name of the patron, seat number of the patron, preference information of the patron, special needs/requests of the patron, and/or information associated with the patron from prior visits to a particular stadium/arena; and

- displaying a location of a portable patron unit used to place the order[.]; and

- allowing the entry of an order for a patron.

121. (Cancelled)

122. (Currently Amended) A portable patron unit[,], comprising:

a display unit;

a user interface for display on the display unit, said user interface being configured to enable a patron while in a stadium/arena to interactively order an item and/or request a service offered by the stadium/arena; and

a wireless communication unit, configured to ~~wirelessly~~ connect the portable patron unit to the a network to ~~pinpoint~~ determine where in the stadium/arena the portable patron unit is located ~~and so that a staff member of the stadium/arena is able to deliver the item ordered and/or service requested directly to the patron based on the location of the portable patron unit,~~

wherein the portable patron unit is a dedicated device capable of being handheld and carried by the patron and/or a staff member[.]; and

further wherein the portable patron unit is provided to the patron upon entering the stadium/arena or after the patron enters a particular area of the stadium/arena.

123. (Currently Amended) The portable patron unit as recited in claim ~~122~~ 420, wherein the display device is touch-screen display device.

124. (Currently Amended) A method for a portable staff unit used in a stadium/arena[.] comprising the steps of:

displaying notification of when an order is ready for delivery and delivery of the order to a patron;

displaying details of the order;

displaying details about the patron, including at least one of the following: name of the patron, seal/location of the patron, preference information of the patron, special needs/requests of the patron, and/or information associated with the patron from prior visits to the stadium/arena; and

displaying a location of a portable patron unit used to place the order.

125. (Currently Amended) A method[.] comprising the steps of:

providing portable patron units to patrons for use in an establishment, the portable patron units being wireless devices having interactive display screens;

enabling patrons to wirelessly order items, request services, and/or browse information associated with the establishment via the portable patron units;

providing portable staff units to staff members of the establishment, the portable staff units being wireless devices having interactive display screens;

enabling staff members to view information about orders and/or requests made by the patrons via the portable staff units; and

providing locations of the portable patron units to enable the staff members to deliver the items ordered and/or services requested directly to the patrons.

126. (Cancelled)

127. (Currently Amended) One or more computer-readable media comprising computer executable instructions that, when executed, direct a portable staff unit at a venue to perform the functions of:

displaying notification of when an order is ready for delivery and delivery of the order to a patron;

displaying details of the order;

displaying details about the patron, including at least one of the following: name of the patron, seat number of the patron, preference information of the patron, special needs/requests of the patron, and/or information associated with the patron from prior visits to a particular establishment; and

displaying a location of a portable patron unit used to place the order.

128. (Cancelled)

129. (Previously Presented) The method as recited in claim 1 wherein the patron units are mounted to other items.

130. (Previously Presented) The method as recited in claim 1 wherein the patron units are mounted to chairs.

131. (Previously Presented) The method as recited in claim 1 wherein the patron units are mounted to tables.

132. (Previously Presented) The method as recited in claim 1, further comprising the patron unit storing data indicative of a location of the patron unit.

133. (Previously Presented) The method as recited in claim 132, wherein the data indicative of the location comprises a room number.

134. (Previously Presented) The method as recited in claim 1, further comprising enabling the patron unit to authenticate a patron using the patron unit.

135. (Previously Presented) The method as recited in claim 134, wherein the authentication comprises enabling the patron unit to accept a biometric sample of the patron.

136. (Previously Presented) The method as recited in claim 135 wherein said biometric sample is a fingerprint.

137-138. (Cancelled)

139. (Previously Presented) The portable patron unit as recited in claim 69, wherein the user interface is further configured to authenticate the patron before the order and/or service is fulfilled via a biometric sample.

140. (Previously Presented) The method as recited in claim 118 wherein the patron units are mounted to chairs.

141. (Previously Presented) The method as recited in claim 121 wherein the patron units are mounted to chairs.

142. (New) The portable patron unit of claim 69 wherein said communication link to said network is a wireless link.

143. (New) The portable patron unit of claim 142 wherein the location of said portable patron unit is determined by a wireless link to one or more network access points and subsequently transmitted to said central computer via said wireless communication link.

144. (New) The portable patron unit of claim 69 further comprising:

a GPS receiver;

wherein the location of the portable patron unit is determined via said GPS receiver and transmitted to said central computer.

145. (New) The portable patron unit of claim 69 wherein the location of said portable patron unit is input directly to the unit and further wherein said location information is subsequently transmitted to said central computer.

146. (New) The portable staff unit of claim 86 wherein said communication link to said network is a wireless link.

147. (New) The method of claim 118 wherein said communication link connecting said patron units to said network is wireless.

148. (New) The portable patron unit of claim 122 wherein said communication link to said network is a wireless link.

149. (New) The portable patron unit of claim 148 wherein the location of said portable patron unit is transmitted to said central computer via said wireless communication link.
